

# standard ergonomic solution

combo packs • articulating keyboard arm and platform

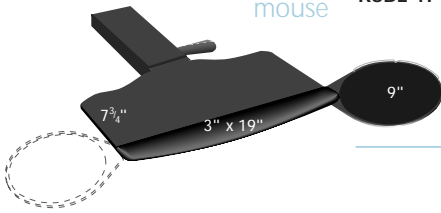

standard

**A-RSTL** – teflon glide 22" storage track  
**A-RSBL** – ball bearing 22" storage track

- knob and lever-free height adjustment ensures smooth one-step operation
- slim profile eliminates "knee knocking"
- 360° swivel for maximum flexibility
- 6" height adjustment for custom keyboard positioning
- soft touch knob release for independent +15/-15° tilt adjustment

swivel  
mouse

**RSTL-TP-19UR-55BK** teflon arm | trimline platform | swivel mouse tray | leather-like palm pad  
**RSBL-TP-19UR-55BK** ball-bearing arm | trimline platform | swivel mouse tray | leather-like palm pad

- slim profile 1/4" black high impact phenolic laminate
- independent swivel-out mouse tray, keeps mouse within a natural reach zone
- 360° swivel mouse tray allows storage of mouse tray under platform

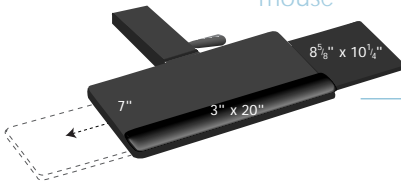

rectilinear

**RSTL-HP-27-55BK** teflon arm | melamine 27" wide platform | leather-like palm pad  
**RSBL-HP-27-55BK** ball-bearing arm | melamine 27" wide platform | leather-like palm pad

- slim profile 1/2" thin black melamine platform
- single surface platform allows ample "same plane" mousing area
- raised "t-mold" edge secures keyboard and mouse when tray is in negative tilt

sliding  
mouse

**RSTL-SLIDER-55BK** teflon arm | melamine slider platform | leather-like palm pad  
**RSBL-SLIDER-55BK** ball-bearing arm | melamine slider platform | leather-like palm pad

- slim profile 1/2" thin black melamine platform
- sliding mouse tray accommodates left or right hand mousing
